EDUCATION

Mumbai University

Bachelor of Computer Science, GPA: 7.8 CGPA

Graduated: 2023

SKILLS SUMMARY

- Languages: JavaScript, HTML, CSS, Python
 - Frameworks: React.js, Node.js, Express.js
 - Databases: MongoDB
 - Tools: Git, Postman, Visual Studio Code
-

WORK EXPERIENCE

- **Software Developer Intern**

New Help Line.com / October 2024 – Present

- Developed a studio location search website using React.js, enabling users to search for filming locations (e.g., Mumbai Film Studio, Hyderabad Film Studio).
- Built an admin panel for adding and managing new studio listings.
- Conducted Research & Development to enhance the app's service-based functionality and user experience.
- Focused on improving website responsiveness and delivering a seamless user experience.

- **R&D**

New Help Line.com / November 2024 – Present

- Conducted extensive Research & Development on service apps for industries such as repair & service, driver hire, and teacher hiring.
 - Collaborated with the team to draft prototypes and create frameworks for future development.
-

PROJECTS

Google Gemini Clone

- Developed a clone of Google Gemini using React.js, implementing cutting-edge AI-like components.
- Added functionalities for data visualization and interactive modules.

Crypto Curry Price Rate Tracker

- Created a React.js-based application to fetch and display real-time cryptocurrency prices.
- Integrated RESTful APIs for live market updates and price fluctuation analysis.
